"We delivered double digit organic growth across our markets in the second quarter with results accelerating from the first quarter, highlighting ongoing business momentum globally. We are also delighted to announce the expansion of our software-driven payments strategy by entering the healthcare vertical market through an agreement to acquire AdvancedMD, a leading provider of cloud-based SaaS solutions to small-to-medium sized physician practices in the United States. This transaction will further shift our business mix toward technology enablement, enhancing future growth opportunities and highlighting our competitive differentiation through to the next decade."
